4. Approval of the Meeting Minutes – August 26, 2020

Ms. Begley motioned to approve the minutes from the August 26 meeting as presented. Ms. Muno seconded the motion, which carried unanimously.

5. Month End Financials – August 2020

The month of August continues to show a slight return to busy months. For the month, Operating Revenues YTD are down 16% from Budget and 7% down from last year. Due to the Covid-19 pandemic the hospital had anticipated a recovery to a 20% drop in Revenues. Year to date, expectations indicate a potential recovery of slightly higher than 80%.

Expenses for the year are 3% under budget. The 10% rollback of wages for the highest earners was initiated June 1, resulting in a drop in Salary expense. This is expected to continue. For the YTD, Expenses are 3% under budget.

Operating Income YTD is a loss of \$6.1M compared to a budgeted loss of \$1.2M, due to the impact of COVID-19.

Days in Accounts Receivable continue to rebound from the Epic conversion in November; from a high of 64 to a remarkable 44.3. And, Days Cash on Hand are up significantly to 242, due specifically to the Stimulus and Loan funds. The last few months have shown significant progress with Accounts Receivable management. The YTD Net Income (Change in Net Assets) is reporting (\$3.4M) loss before a projected recognition of Stimulus of \$10.1M in Cash, to cover this shortfall, for 2020.

Revenues

Year to Date Revenues are slowly rebounding. Gross billed charges are below budget by 18% or \$11.9M. Outpatient visits are also reporting significant losses, for the year-to-date. Initial expectations for the 3rd Quarter were 20% less. There is reason for slight optimism for better results than initial Forecast. Looking forward, the prevailing thought suggests a potential continued recovery through the remaining summer and the rest of the year.

Balance Sheet

The Balance Sheet has looked better than it does now. Unfortunately, there remain numerous challenges for the hospital. However, the Stimulus funds are helping. Days Cash on Hand are artificially high at 242. It is expected, however, that we will continue to slowly burn through these funds until the hospital can settle either increasing revenues or reduce expenses.

As a note, the Accrued Liabilities, the Est Third-Party Settlement and Short-Term Notes Payable does reflect the recording of Stimulus Funds, the Advanced Payment from Medicare and the Payroll Protection Program, totaling \$14.5M. When there is confirmation that any of these advances are forgivable, those will be recognized as Other Non-Operating Income.

Forecast for 2020

The forecast numbers are indeed staggering. We have tried to develop a realistic look at the remainder of the year. Some assumptions were made regarding recovery of Revenues and some Expense

reductions. However, given the dramatic and sudden loss of patient visits earlier in the year, and the current recovery period, it is anticipated that Revenues will recover to 80% of Budget. The challenge will be managing expenses with less Revenues going forward.

Summary

Obviously, the remainder of the year does not look overly optimistic for a full recovery. The good news is that we do have some funding completed to help navigate the next few difficult months. We do believe sufficient funds exist, for the short-term, given a modest economic growth and good cash management. It is highly unlikely the District will accomplish the budgetary goals for the year, due specifically to the COVID-19 pandemic. However, the Stimulus funds will aid the recovery period. The goal for the remainder of the year is to maintain enough cash flow in order to stay compliant with our covenants.

Discussion included:

- The community may inquire if EPH is on track for 80% or better. It is hard to delineate when YTD projections are provided.
- It is the Board's responsibility to help the community understand the financial forecast.
- The EPH forecast is guarded with a lot of uncertainty, which is based on information being received from local, state and national experts.
- Is it feasible for the Board to delay the decision on all expense reductions until Q1 2021?
 - Currently numerous expense reductions are in process, except for the LC. These adjustments need to occur in order to right size the organization.
- When was the last time EPH invested in the LC?
 - The Foundation recently bought new beds and refurbished the dining room area. EPH contracted with Good Samaritan to provide a full-time Executive Director in an effort to improve the facility and care. Unfortunately, the Executive Director only worked on a part-time basis, so due to this and several other issues that were not being addressed, the contract was terminated and EPH hired its own Executive Director.
- What is the senior leadership's concern with delaying the decision on the LC?
 - Staffing and quality are serious issues within the LC.
 - If EPH was to keep the living center open, the investment would be very significant in order to move it from where it currently is to where it should be. Overall, it is not a good investment for the financial health of EPH.
 - If the LC does close, there will still be a great deal of expenses in 2021 as part of the closure process.
- CMS has released the instructions on how report the requirements to make the application for the CARES Act money.
- The \$14M Paycheck Protection Program (PPP) money was applied to the June and July payroll.
- The stimulus funds and grants EPH received were to offset virus-related expenses and losses that EPH incurred.
- Concerns were discussed regarding the salary reduction and PTO accrual freeze that the staff has been undergoing and when those items will be restored.

6. Adjournment

CFO Report 3rd Quarter 2020

Executive Summary

For the month of September, earnings were (\$44,544) compared to Budget of \$313,471. Year-To-Date ending in September, earnings were (\$3.4M) and compared to a budget of \$1.6M. Operating Income YTD is a loss of (\$6.4M) compared to a budgeted loss of \$1.3M, due to the impact of COVID-19.

For the month of September, Operating Revenues were very close to Budget and 4% down from last year. Due to the Covid-19 pandemic the hospital had anticipated a recovery to a 20% drop in Revenues. Year to date Revenues are 14% under budget. Initially, expectations pointed toward a potential recovery of Revenues to 80%, thus 14% from Budget might be viewed as positive.

Expenses for the month are 6% over budget due principally to increases in COVID related Supplies and also Pharmacy. The 10% rollback of wages for the highest earners was initiated June 1, resulting in a drop in Salary expense. And the staff continue to experience a freeze on PTO accruals.

Days in Accounts Receivable continue to rebound from the Epic conversion in November; from a high of 64 to a remarkable 44.1. And, Days Cash on Hand are up significantly to 245, due specifically to the Stimulus and Loan funds. The YTD Net Income (Change in Net Assets) is reporting (\$3.4M) loss before a projected recognition of Stimulus of \$10.1M in Cash, to cover this shortfall, for 2020.

Balance Sheet

Days Cash on Hand are artificially high at 245, due specifically to the COVID Stimulus funds. It is expected, however, that we will continue to slowly burn through these funds until the hospital can settle either increasing revenues or reduce expenses.

As a note, the Accrued Liabilities, the Est Third-Party Settlement and Short-Term Notes Payable does reflect the recording of Stimulus Funds, the Advanced Payment from Medicare and the Payroll Protection Program, totaling \$14.5M. When there is confirmation that any of these advances are forgivable, those will be recognized as Other Non-Operating Income

Forecast for 2020

Please note an attached Forecast. Assumptions were made regarding recovery of Revenues and some Expense reductions, however, given loss of patient visits earlier in the year, and the current recovery period, it is anticipated that Revenues will recover to approximately 80% of Budget. The challenge will be managing expenses with less Revenues, going forward.

This Forecast does indicate the recognition of most of the Stimulus funds (\$10.1M) and the projection of a modest recovery of business volumes and revenues. As a result, the year should report modestly favorable, due to the temporary injection of government funding.

Summary

The month of September is reporting 1% decrease in Operating Revenues and YTD decrease of 14%, due to the COVID pandemic. Assumptions include the continued possibility of a recovery to approximately 80% of normal, by year end. Leadership continues to explore opportunities for long-term reductions in Expense and programmatic changes. Even with the pandemic, trends and long-term forecasts indicate a continued decrease in reimbursement for services. While expenses continue to increase, net revenues in the healthcare industry are predicted to decline.

EPH Days in AR (Gross)

Calculation:
$$\frac{\text{Gross Accounts Receivable}}{\text{Average Daily Revenue}}$$

Definition: Considered a key "liquidity ratio" that calculates how quickly accounts are paid.

Desired Position: Downward trend below the median, and below average.

How ratio is used: Used to determine timing required to collect accounts. Usually, organizations below the average Days in AR are likely to have higher levels of Days Cash on Hand.

Days Cash on Hand
September 30, 2020

Calculation:
$$\frac{\text{Total Unrestricted Cash on Hand}}{\text{Daily Operating Cash Needs}}$$

Definition: This ratio quantifies the amount of cash on hand in terms of how many "days" an organization can survive with existing cash reserves.

Desired Position: Upward trend, above the median--AND above Bond Covenant Minimums

How ratio is used: This ratio is frequently used by bankers, bondholders and analysts to gauge an organization's liquidity--and ability to meet short term obligations as they mature.

Note: At EPH, the Bond Refunding/Loan documents require a minimum level of 90 days cash be maintained. It changed to 90 effective March 1, 2016.

BUDGET 2020

<i>ASSUMPTIONS</i>	<i>COMMENTS</i>
Revenues	
<i>MedSurg</i>	3% Rate Incr. Volumes same as 2019. Hospitalist and Surgicalist program considered
<i>Swing Bed Program</i>	Initiative to develop the program is underway. Assume 1 SWB per day. 2019 Estim Cost Report shows rate of \$3600, estimating \$3100 per day for Nursing Revenue
<i>Observation Days</i>	3% Rate Incr. Volumes same as 2018. Hospitalist and Surgicalist program considered
<i>NLC</i>	No changes. Same volumes as 2018 expected. Increase of 3% in rates
<i>Emergency Dept</i>	With expected opening of Urgent Care Center in March 2020, volumes are expected to decline by 15%. Proposed 4% increase in rates
<i>Urgent Care Center</i>	Anticipated opening March 2020. Volumes and Revenues are budgeted consistent with Feasibility Analysis from Stroudwater.
<i>Surgery</i>	Budgeting higher volumes for 2020; new General Surgeon, updated work flow patterns.
<i>Respiratory</i>	No changes.
<i>Pharmacy</i>	Estimating no change in volumes. Coag Clinic is running full capacity. Slight increase of 3% in rates, strategically.
<i>Lab</i>	No change in volumes nor rates.
<i>Radiology</i>	No significant changes.
<i>Home Health/Hospice</i>	No change in rates
<i>Rehab</i>	Slight increase in visits and 3% increase in rates.
<i>PPLC</i>	No changes
<i>Clinic</i>	New providers in Clinic should yield increase in visits. Surgicalist program will have Clinic availability; yet not budgeting for any increase in visits.
<i>Pain Clinic</i>	Program continues to grow; anticipating more clinic visits and procedures.
<i>Cardiac Clinic</i>	Program is at full capacity. Anticipating 3% increase in rates.
<i>Wound Care & Infusion</i>	Budgeting to current volumes. 3% increase in rates.
<i>Sleep Lab</i>	Losing tech in late 2020; replacement is not identified, thus low volumes budgeted for first quarter
Contractuals	
<i>Revenue Deductions</i>	Budgeted consisted with current year experience. Anticipating ongoing work with Medicare Cost Report and Uncompensated volumes. Considering updates from Medicare Cost Report, including potential receivables.
Expenses	
<i>Salaries</i>	Planned 3% Merit based increase. Budgeting at full staff requirements, and adding supplemental expense for Contract Labor. Recruitment continues to be difficult.
<i>Benefits</i>	Health Insurance is currently estimated at 4% increase, due to self-funded program at risk costs. No other changes in cost are anticipated.
<i>Professional Fees</i>	Consideration to the abnormal year of 2018, anticipating a slight decrease for 2019.
<i>Physician Professional Fees</i>	Considering changes in Surgery coverage and Pain Mgmt. This include the systems change to EPIC. There will be ongoing changes to the area as IT contracts with Epic materialize. Costs expected to grow by \$380K.
<i>Maintenance Contracts</i>
