

The Colorado Indigent Care Program (CICP) will be ending on July 1, 2025. A list of resources is included below to help you. Please contact your place of care to ask about other discounted care options they may have. Our team is available to answer any questions you have about Estes Park Health Hospital Discounted Care or other financial assistance options available at our facility. You can reach us at 970-577-4327 or [patientfinancialcounseling@eph.org](mailto:patientfinancialcounseling@eph.org)

Your co-pay card may not be valid after CICP ends. Talk to your place of care for more information.

For CICP clinic patients - check with your clinic about financial assistance options.

Clinics may continue to give co-pay cards for their own programs, but some clinics will not take these cards after July 1, 2025.

For CICP Hospital patients - if you qualified for CICP through a hospital you automatically qualify for Hospital Discounted Care. Hospitals must provide a determination letter to their patients after they apply for Hospital Discounted Care. These determination letters can be used at other hospitals.

The hospital's financial team will help you fill out an application for Hospital Discounted Care. Contact 970-577-4327 for help.
